Life's Shop Window

BEST FOR LIVER,
BOWELS, STOMACH
HEADACHE, COLDSThey Live the Liver and Bow-
els and Straighten You
Right UpDon't Be Bilious, Constipated,
Sick, With Breath Bad and
Stomach Sour

Tonight sure! Take Cascarets and
enjoy the nicest, gentlest liver and
bowel cleansing you ever experienced.
Wake up with your head clear, stom-
ach sweet, breath right and feeling
fine. Get rid of sick headache, bilious-
ness, constipation, furred tongue, sour
stomach, bad colds. Clear your skin,
brighten your eyes, quicken your step
and feel like doing a full day's work.
Cascarets are better than salts, pills
or calomel because they don't shock
the liver or gripe the bowels or cause
inconvenience all the next day.

Mothers should give cross, sick, bil-
ious, feverish children a whole Cas-
caret anytime as they can not injure
the thirty feet of tender bowels.—Adv.

BRIEF BITS ON MEN,
PLANS AND EVENTS
AT HONOLULU'S "Y"The XX Club announces a meeting
on March 3.The Get Ready Club will hold a
meeting tonight.Members of the Knights of Kame-
hameha will meet tonight to discuss
the National Pentathlon meet.Carl Cassingham, the new leader of
the El Globo Club, will be present at
the monthly meeting on March 2.Intermediate debaters are busy now
practicing up for the finals of the de-
bate which will be held on March 22.Club bowlers will meet at 7:45
this evening to plan a schedule for the
new season, which opens on March 14.Plans for participation in the A. A.
U. meet will be arranged at the meet-
ing of the Athletic Council today at
6 p. m.The Intermediate department an-
nounces that a basket-ball double
header will be staged on Saturday
evening, March 4.David Carey Peters will talk at the
Y. M. C. A. on Friday noon at 12:30
on "A Circular Letter." This is one
of the stories of the men who wrote
the New Testament.A. A. Ebersole will open a new se-
ries of lectures at the Bible class
meeting this evening. His subject will
be "Death." On March 7 he will talk
on "Heaven," and "Hell" will be the
topic on March 14.

HONOKAA AND PACIFIC SUGAR OWN
NEARLY ALL HAWAIIAN IRRIGATIONPurchases of Stock During
Year at Total Cost of More
Than \$95,000

Honokaa Sugar Company and the
Pacific Sugar Mill, by the purchase of
175,000 shares of stock in the Hawa-
ian Irrigation Company, Ltd., the price
totaling more than \$95,000, now own
practically all the shares in the latter
corporation, according to reports pre-
sented to Honokaa and Pacific Sugar
shareholders at their annual meeting
this morning.

The annual report of F. A. Schaefer,
president of Honokaa, follows, in part:
Crop of 1915.

This crop, which was estimated by
the manager to produce 10,000 tons of
sugar, was a great disappointment, the
outturn being 8,612.625 tons only. It
undoubtedly suffered from unprece-
dented rains of 1914 while the juice
was poor, it taking on an average 9.25
tons of cane to produce a ton of su-
gar. In spite of greatly improved mill
work.

"This crop will be harvested from
2484 acres, which is estimated to pro-
duce 7000 tons of sugar.

"As much of this crop is to be har-
vested from high-level lands, I beg to
quote from last year's report, where
in the manager reported that these
upper fields were nearly drowned out
—in fact, they hardly made a move
during the past four months, and from
this condition recovery was very slow.
Crop 1917.

"This crop consists of 2568 acres.
At the time of writing this crop is
looking remarkably well, although the
stand is thin in patches. Given good
growing weather this year, and ap-
plying the principle of forcing the sec-
ond season growth of the cane, which
has given such excellent results on
other plantations, I trust that the
1917 crop will be well above the aver-
age produced.

"The cost of producing a ton of
sugar was considerably reduced, viz.:
from \$65.136 to \$54.253, these figures
not including bond interest, etc., while
the net profit on the crop—over and
above all charges—was \$161,849.85,
which includes a charge of \$17,720.42,
sinking fund on the bonds, which is
payable to the trustees during this
year.

Hawaiian Irrigation Company, Ltd.
During the year the directors, on
the authorization of the stockholders,
purchased a four-sevenths interest in
122,500 shares of the Hawaiian Irriga-
tion Company, Limited, for the sum of
\$81,472.23, paying for the same in
cash.

"This purchase gives to this company
and its neighbor, Pacific Sugar Mill,
practically all of the shares of the
Hawaiian Irrigation Company, Ltd.,
and is expected to prove very advan-
tageous."

"President Schaefer's report, as pres-
ident of the Pacific Sugar Mill, is in
part as follows:
Crop of 1915.

"This crop was estimated to pro-
duce 7655 tons of sugar; the outturn,
however, only amounted to 7253 tons,
being 402 tons short of the manager's
estimate. It undoubtedly suffered
from the unprecedented rains of 1914,
the juice being poor, it taking 9.11
tons of cane to manufacture a ton of
sugar, in spite of greatly improved
mill work.

"This crop will be harvested from
2056 acres, which is estimated to pro-
duce 6440 tons of sugar. The upper
lands to be harvested this year re-
ceived a very bad set-back during the
first few months of their growth, on
account of the continuous wet, cold
weather.
Crop 1917.

"At the time of writing this crop is
looking remarkably well, and, given
good growing weather during this
year and applying the principle of
forcing the second season growth of
the cane, which has given such excel-
lent results on other plantations, I
trust that the crop to be harvested in
1917 will be one of the best ever pro-
duced by your company.
Ditches.

The average flow of the Upper and
Lower Ditch of the Hawaiian Irriga-
tion Company, Limited, was very
good during 1915; not once did the
Lower Ditch fall below the 30,000,000-
gallon mark.

"During the past year the cane of
the Pacific Sugar Mill was again
ground at Honokaa Mill, with very
satisfying results. The mill work,
during the year, showed a great im-
provement over that of 1914, the re-
covery being \$6.82 per 100 sucrose in
cane as against \$3.66, an increase of

of sugar was reduced from \$6.638 to
\$5.847, or nearly \$1.00 per ton.

Expenses:
"The cost of producing a ton of
sugar was considerably reduced, viz.:
from \$59.164 to \$48.513, these figures
not including bond interest or sink-
ing fund, while the net profit on the
crop—over and above all charges—
was \$181,063.39, which amount in-
cludes a charge of \$19,893.84, sinking
fund on the bonds, which is payable
to the trustees during this year.

"During the year the directors, on
the authorization of the stockholders,
purchased 52,500 shares of the capital
stock of the Hawaiian Irrigation Com-
pany, Limited, paying therefor \$11-
592.20 in cash, and increasing the
capital stock from \$750,000 to \$850,000.
"This purchase gives to this com-
pany and its neighbor, Honokaa Su-
gar Company, practically all of the
shares of the Hawaiian Irrigation
Company, Limited, and is expected
to prove very advantageous.
Management.

"W. P. Naquin, for the past five
years agriculturist with the Hawaiian
Sugar Planters' Association, and pre-
viously for three years field chemist
with Uiaa Sugar Company, and a gradu-
ate of the Louisiana Sugar School,
has been appointed to and will assume
the management of this company on
March 1. It is hoped that Mr. Na-
quin's technical knowledge and also
practical experience will prove useful
in solving some of the many problems
needing solution on a plantation sub-
ject to such extremes of rainfall as
Kukuihaele."

Officers and directors of Honokaa
were chosen as follows, the one
change being the selection of A. P.
Welch as second vice-president, in
place of E. P. Rithet.

F. A. Schaefer, president, Honolulu;
W. H. Baird, vice-president, Honolulu;
A. P. Welch, second vice-president,
San Francisco; J. W. Waldron, sec-
retary, Honolulu; James Greig, assis-
tant secretary, San Francisco; W.
Lanz, treasurer, Honolulu; Audit Com-
pany of Hawaii, auditors, Honolulu.
Board of directors—F. A. Schaefer,
W. H. Baird, W. Lanz, J. W. Waldron,
H. Focke, George Rodlek and J. T.
McCrosen, all of Honolulu.

ARE MEDICINES LIQUORS?

A certain class of prejudiced and
jealous doctors call patent medicines
only alcoholic beverages. They will
tell you that such and such a medi-
cine contains as much alcohol as a
glass of beer or a certain quantity of
whiskey; but they do not mention
that the beer or whiskey is swallowed
at one draught, while only a small
quantity of the medicine is taken at
one dose. At the same time they will
use alcohol quite as freely and many
in four or five times as great propor-
tions in their own prescriptions.
Such standard remedies as Lydia E.
Pinkham's Vegetable Compound use
barely enough alcohol to preserve the
root and herb extractives, too little to
have injurious effects; and the medi-
cine can be had, if desired, in a non-
alcoholic form.—Adv.

ON THE FACE OF IT.

"Mustaches come and mustaches
go," scraped the razor to the lip.
"But I go on forever," winked the
eyebrow in an almost inaudible whis-
per.

"What an 'Ighrow remark," twit-
tered the chin.

"And what a lot of cheek," cut in
the razor.
Whereat they all bristled up and
the blood flowed freely.—Michigan
Gargoyle.

TYREE'S ANTISEPTIC POWDER
Catarrhal and Infected Conditions of the Mucous Membrane
are immediately removed without pain, stain, odor and without the danger attendant on the use of poison-ous chlorides, tablets, carbolic acid, etc. and other so-called sanitary remedies by using
Tyree's Antiseptic Powder
This is a perfectly harmless remedy, which instantly relieves inflamma-tion, heals ulcerated tissue and is UN-EQUALLED AS A DOUCHER. TYREE'S ANTISEPTIC POWDER is quickly and easily prepared, a 25-cent box making two gallons of harmless, standard an-tiseptic solution.

WOULD NOTIFY
WASHINGTON IF
LAND DEAL MADE

That the attorney-general of the
United States will be asked to look
into the "Waiakea lease case" if trans-
fer from the territory to Senator D.
E. Metzger is consummated, is the
statement from those in touch with
the objections raised by Attorney A.
A. Wilder to the transfer.

Such action will be based, it is
stated, on the fact that the United
States has an interest in the lands in
question. Notice is to be served, it
is intimated, on the governor and the
commissioner of public lands that the
attorney-general will be notified if the
transfer is concluded.

The wireless station at Colon at
noon each day sends out broadcast
forecasts of the weather in the Carib-
bean, South Atlantic and Gulf re-
gions to aid shipping.

Keep the Chicks
free of "Sore-head"that dreaded affliction of poultry here
in Hawaii.

Pratts

Sorehead, Chicken-pox
Remedy

will clear up the ugly looking
